## Straight Talk About 6th War Loan Drive

As we move closer to victory, it wouldn't be surprising if you were saying to yourself— "What's the big idea of asking for all this additional money now? Isn't the war almost over?"

No, sir, it is not! Not by a long shot. Of course, for many months now you've heard mostly about the war with Germany, where our greatest effort was concentrated. That's why many people have the idea that the war's practically over.

But make no mistake about it—nothing could be farther from the truth! The Japanese war is tremendous undertaking, and victory will come high. We'll have to fight every inch of the way.

## Everything Costs More—In the Pacific War

The European war is expensive, but almost everything in the Pacific war costs more. Take transport costs, for instance. Because of the longer distances, the same amount of freight costs 25 per cent more when shipped to the South Pacific than to Europe. And it takes twice as many cargo ships in the Pacific to support a task force of a given size since turn-around time is twice as great!

## More Planes... Tanks... Ships... Oil

In addition, we will need more of everything. More B-29 Superfortresses that cost \$600,000 each. More P-47 Thunderbolts that cost \$50,000 each. More M-4 tanks, with bulldozer blades, that cost \$67,417 each. More amphibious tanks, more aircraft carriers—more supply ships—more gasoline and oil than it took for the invasion of Europe!

## Care for the Sick and Wounded

And lest anyone forget, we will need more hospital stations—more evacuation hospitals—more convalescent hospitals—more hospital ships. For many, many years, sick, wounded, and otherwise disabled veterans will require medical attention and care. That's the least Uncle Sam can do in appreciation of what they've done for us.

## Winning the Peace—For Your Country

If we're to win the peace as well as the war, the cost of living must be kept down and the purchasing power of money preserved. A reckless inflation that would be the result of the catastrophe of deflation—with its unemployment, bankruptcies, misery and heartache—must be prevented at all cost. Let's make no mistake—a dangerous period lies ahead. The American people have nothing to fear, however, if they show in the future the same common sense they have shown in the past, and continue to put every penny over the top—between expenses into the purchase of more and more War Bonds.

## Winning the Peace—For Yourself

Want another important reason? Yourself! There isn't a better or safer investment in the world today than War Bonds. In helping your country, you are also helping yourself! Never in our entire history has it been so necessary to save as right now. Before we need money, individually, for education, repairs, replacements, retirement—and we'll need a lot of it.

As you can see there are many reasons, important reasons, why our Government must have the financial support of everyone, and have it for many months to come.

Let all Americans do their part for their own sake, for their country's.

## Lower Merion High School NEWS LETTER

Excerpts from letters printed below are written by men and women in the service to their Alma Mater back home. They are reprinted exactly as they appear in the current issue of the Lower Merion High School "News Letter". As the "News Letter" is only mailed to those in the service school authorities have approved its publication so that it may be read by the folks back home.

FRANK T. BASILE, S. 2/c, Port Columbus, Ohio, comes across with his first reply to the NL. He says his brother, JOE and ANTHONY, both are still giving him advice, and Joe is planning to get married in his next furlough. (Hello, TONY, did you know that? You gonna bring one of those French maidens along home?) Frankie, I'm writing this on the eve of our football game with West Philly, and I'm sure many of the fans will miss your long runs. Good luck to you.

Here's a rookie, LESTER ROSENFELD, S. 2/c, in Yeoman School, Baltimore, Md. He has a lot of news about the '44 gang (we'll hold it until later), including DRURY, CAMPBELL, THORN, ALLEN, VANGIERI, GUCKES and NEALY. These fellows were all together at Boot, but got separated in OGU. All are on our list and we'll wait for reports. Thanks, Lester.

PVT. WM. S. STUART, Camp Gruber, Okla., has had his operation, and is on the way to recovery, glad to be out of bed again. He's all pepped up over our football team. Dig into those books, study whenever you can and you'll pass the Economics. Best of luck to you.

ENS. FRANK DUNIGAN, '40, FPO SF, is somewhere in the Pacific flying from an island he calls the "ROCK". There are no other Merionites there so far as he knows. But LT. JACK HEALY, a Main Liner, who flies with him in their squadron, reads the NL as he knows many of the guys of '37 and '38. He wishes the class of '40 were better represented, and he'd like to suggest a rollick for next—"let's see

## County May Order Ballot Box Opened

Given That Authority Where Inconsistency Exists

Montgomery County Board of Elections may of its own volition order opening of the ballot box for the First District of Narberth to make a recount of the vote cast there for Francis J. Myers, Democratic candidate for United States Senator. The Board has this authority in the act which created it, under a provision that it may be done where an inconsistency is shown.

There is an obvious inconsistency insofar as the vote of Myers is concerned, where the official return sheet shows 166 votes for him and 619 for U. S. Senator James J. Davis. All other Democratic candidates there received approximately 260 and all other Republicans approximately 620 so that if there was a cutting of Myers on the Democratic ballot, Davis has not received the benefit of it according to the count.

The error became still more obvious in view of the assertion by District Board officials who say there were 254 straight Democratic ballots cast out of which Myers is credited with only 166.

Democratic County Chairman Raymond K. Mensch, who as County Commissioner is a member of the Board of Elections, said this week that if the box is not opened voluntarily by the Board, he will file a petition with the Court asking that it be opened.

## Say Defense Set Up No Longer Needed

Seek End Of Air Raid And Blackout Drills

Disbanding of the Philadelphia Metropolitan Defense Council, which is made up of five counties, including Montgomery, was discussed at a meeting in Philadelphia City Hall Tuesday.

The plan is to abandon the unit had its inception several weeks ago when one of the counties made the suggestion. It then was decided to call together the county chairmen and county commissioners of the five counties at a meeting at the Montgomery County Court House.

The Metropolitan Council is made up of Defense Councils in Philadelphia, Montgomery, Chester, Bucks and Delaware Counties. Montgomery County has served as the treasury of the five-county group.

Under the original agreement in which the five counties joined together, an annual expenditure of \$13,000 was provided to carry on its work. This money was contributed by the five counties and the money deposited with and expenditures handled through Montgomery County.

Under the agreement the annual contributions from the five counties were: Philadelphia, \$5,200; Delaware, \$2,340; Montgomery, \$2,340; Bucks and Chester, \$1,560 each.

Expenditures ran high until May of this year as a result of operation of the various systems designed for adequate protection by the use of hundreds of telephones clerical help, etc.

Since June, however, it is understood the expenditure has been cut only about \$50 a month.

Abandonment of the Metropolitan Council would not eliminate the Civil Control in the counties as these are under Army control.

Elimination of blackouts and air raid alerts and all the other things that made up the work of the defense units, is said to be the main reason for elimination of the group.

A Sixth War Loan Caravan of returned veterans, jeeps, half-tracks, sound trucks and ambulances will visit the Main Line at the peak of the Montgomery County drive to raise \$19,833,000 before December 16.

More than 8000 volunteers supervised by 22 community chairmen, swung into action throughout the county Monday as the drive was officially launched.

In Lower Merion Township Thomas Barnes, 2d, Gladwyne, and James L. Gardiner, Ardmore, are co-chairmen.

In the industrial division Robert F. Wood, representing the Autocar Company of Ardmore, was the management committee.

According to an announcement of Dan Emmert, vice-chairman of the Pennsylvania War Finance Committee, the caravan will visit Ardmore and Bryn Mawr on December 1.

Referring to the caravan program, Emmert said:

"We expect to let your community know there is a War Bond rally going on and we would like if you would join us when we arrive."

"November 20th is D-Day for the Sixth War Loan. Five times Montgomery County has answered the call and five times we have gone over the top."

Ernest V. Hunter, Pottstown, Montgomery County chairman, predicted that the county would surpass its quota.

"Volunteer workers in starting out," he said, "offer a program worthy of emulation by every patriotic citizen of Montgomery County by pledging to first go to church for divine guidance and secondly by buying a bond before beginning their personal solicitation of prospective buyers in the territory allotted them, thus placing them in an inspired frame of mind for the gigantic task before them."

"I am confident that Montgomery County will not only attain its quota of \$19,833,000 in bond sales, but will go far over this amount with men and women in all walks of life in this area backing up the fight for the Sixth War Loan by their dollars to insure the swiftest victory possible."

"From practical experience," she added, "I know that it is a race to see who gets in on the ground floor to teach our children what, why and when. First, our children must be taught that politics is the art of governments that means the art of all arts, that humanity will depend on most during the difficult years

## 'Back the Attack'

"Back the Attack!" Share the pack on the back. Of a boy who is fighting for you. "Back the Attack!" Shell out all your jack. Wrap it up in the "Red, White and Blue."

"Back the Attack!" At the Japs take a crack. Let's wipe out the Pearl Harbor stab. "Back the Attack!" Add more Bonds to the stack. It will help stop the Japs' game of grab.

"Back the Attack!" on the submarine pack. On the desert, the air and abroad. "Back the Attack!" as through jungles they hack. Driving on with one will and accord.

## \$15,000 Short Of War Chest Goal

Penn Valley Leads Communities With 97 Per Cent

Less than \$15,000 was needed to meet the goal of Main Line Division No. 1 of the United War Chest according to reports submitted at a report luncheon last Friday.

This Division, made up of the Ardmore, Wynnewood, Penn Valley, Narberth, Merion and Overbrook districts, had reached 99.4 percent of its quota of \$15,000.

With workers making extra efforts over the weekend, the division chairman, J. Randall Williams, Jr., expressed hopes that the gap would be closed this week and the quota met.

A total of 4322 subscriptions were received up to last Friday from the six communities of Main Line Division No. 1. In percentages, Penn Valley was leading with 97.6 of its quota. Wynnewood was a close second with 96.4. Overbrook had 89.6 percent, Merion 87.4 percent, Narberth 83.1 and Ardmore 81.5.

Subscriptions reported to last Friday totaled \$100,997.44.

Many contributors have increased the amount of their subscription over last year and campaign officials hope that when all prospects are contacted the goal will be exceeded.

From a small band (eight, to be exact) of patriotic women in Montgomery County, the enlistment has grown to 100. Four hundred women are needed in the 6th War Loan Drive.
